

Affordable automation!

Here's how: >>

Automate your **bar** and **sheet** storage, order filling and packaging operation, sending 40% savings on manpower direct to your bottom line. Capital outlay is about half that of full automation...payback in less than 2 years.

Consider this: >>

- Be a low cost producer with reduced cost per pick
- On time delivery with more picks per shift
- Less customer rejects with reduced product damage
- Less employee turnover with greater safety and less fatigue
- Increase available workforce with equipment suitable for either gender
- Automate existing buildings and use current IT systems

Let us survey your operation, recommend a solution and guarantee 100% satisfaction. Call us today.
