

Shear Perfection.

Shear automation = more for less.

Today you want improved quality and productivity with less manpower and lower costs. And that's exactly what you'll get when you automate your shear with Metal Center Systems.

Our automated systems blow away conventional shears for accuracy and productivity. Computer-controlled operation provides $\pm .005$ " tolerance with reduced waste. You'll get 33% more throughput – with just one operator instead of two! Plus, the whole process is hands-free, for greater safety and reduced operator fatigue.

Make the automatic choice. Call Metal Center Systems today for a free engineering analysis. You'll love the speed, accuracy and savings. It's shear perfection!
